

Sats Results (Keys Stage 2) 2015

We were pleased with our Sats results this year, but as we had such a small cohort of pupils in Year 6 we won't be publishing them in the same way as previous years for reasons of privacy. Because the cohort is so small, the data source is not a reliable one, however, our headline results are as follows:

100% of our children gained Level 4 or above in Reading

The % of children that gained Level 5 was well above national averages in all subjects

The data does show that we have continued our strong performance in Reading and we continue to have a high degree of challenge for our most able pupils, across Reading, Writing, SPAG (Spelling Punctuation and Grammar) and Mathematics.
